

Math 2106-D, Foundations of Mathematical Proof
Homework 8
Due November 16, 2017

Do the following problems from Judson:

Section 5.3: 2 (you don't need to show your work for just this problem) (hint: look at the solutions to several of the parts of this question, as well as to question 4, in the back of the book), 29, 33

Section 6.4: 6,8,16,18
